

Precision Die Sets & Components Newsletter June 2009

GAS SPRINGS - FAST DELIVERY

PDC are sole UK and Ireland distributors for the growing TECAPRES brand of GAS SPRINGS. All springs are manufactured to very high quality standards with a competitive price. Tecapres gas springs also conform to EU directive 97/23/E6 for pressurized devices.

2 Day delivery

ACCU-BEND

Our new range of Accu-bend rotary bending units are now available in standard metric designs and differ from the original benders as they now have a toolsteel rocker in A steel saddle with a graphite plugged Aluminium Bronze liner. As before the units can be used individually or butted end to end giving the ability to produce bends in long components. The Accu-bend units can simplify your bending process, reduce tooling costs and produce a higher quality bend.

We now offer large capacity surface grinding 550 x 1500mm max
At very competitive prices.

Call us or use our web site request form to find out more details.
